1 Executive summary

Within Task 2.3 “Best practice examples” corresponding to Deliverable 2.6 “Short report on existing financial incentives (from 6 partner countries) and a presentation of the existing financial incentives” all partner countries collected information about existing financial incentives for energy audits and investments in energy efficiency. The results were integrated in Excel-database (in national languages) and summarized in a Word-File (English). Furthermore, a separate powerpoint presentation was developed for each country in the national languages.

2 Introduction

It was decided within the consortium that not all information was translated as those information are country specific.

2.1 Purpose of this document

This document describes the activities and results of Task 2.3 “Best practice examples corresponding to Deliverable 2.6 “Short report on existing financial incentives (from 6 partner countries) and a presentation of the existing financial incentives”.

2.2 Relation to other activities in the project

This activity relates mainly to WP 5 platform and WP 3 “Capacity building for energy culture”. Within Task 3.3 no separate document was established. The cluster “financial schemes and instruments” of WP 3 is covered by the presentation and Excel-database developed within this task.

2.3 Partners´ contribution

PLA developed a database Excel-file, AEA contributed with a list of financial instruments.

For each partner country the corresponding partner filled in the Excel database, prepared the powerpoint (both in national language) and prepared the Word-file.

- Finland: VTT
- Austria: AEA
- Germany: SEN
- Switzerland: PLA
- France: CCI
- Italy: ENV

3 Financial Instruments

PLA developed a database Excel-file for collecting information on financial instruments, AEA contributed with a list of financial instruments/categories.

All partner countries collected information about existing financial incentives for energy audits and investments in energy efficiency. The results were integrated in Excel-database (in national languages) and summarized in a Word-File (English). Furthermore, a separate powerpoint presentation was developed for each country in the national languages.

4 Conclusions

The Excel database was developed by PLA in April. Some information of selected countries was collected in May. In the project meeting in Torino beginning of June it was decided to finish the

documents in the respective languages in July. (as during the June several other activities within IMPAWATT were more urgent).

Firstly, the documents were uploaded in July on the IMPAWATT cloud. Within the next weeks the documents can be found on the different IMPAWATT platforms: fr.impawatt.com, eu.impawatt.com, ch.impawatt.com, de.impawatt.com, at.impawatt.com, it.impawatt.com.
